SimLeague installs zero background software, runs no PC scripts and touches zero firewalls. Golfers or staff point any phone camera at the GSPro Hole 18 summary screen — all 18 hole scores, putts and settings are captured in 2.4 seconds at u.playsimleague.com.

PILLAR 2**The Sim-Index: Solves the GSPro Putting & Gimmie Dilemma**

Putting into an impact screen on GSPro is frustrating and slows pace of play. Our Expected Putting Value (EPV) engine lets you set an 8-ft auto-gimmie for speed, then normalizes scores to a fair differential — gross and net skins pots stay 100% fair and argument-free.

PILLAR 3**Hyper-Local DuPage County Bar TV Monetization**

4 rotating 16:9 sponsor cards on your bar TV leaderboard, sold to breweries, realtors, auto shops and club fitters in Westmont, Downers Grove, Hinsdale and Oak Brook.
